

Laboratory Services

Laboratory Services are provided by the Gateway Lab (1st floor of Gateway Medical Office Building) and Medical Arts Lab (Medical Arts Building on CMC – NorthEast Campus).

All lab work is performed and billed by **Carolinas Lab Network (CLN)** –These laboratory services are billed as a reference lab (the same way you would be billed by LabCorp, Solstas, etc.)

Please be advised that if you choose to use an outside lab such as LabCorp or Solstas, your lab results are not delivered directly to our electronic medical record system. They are delivered via fax and may take several days longer to be received by your Provider.
